EXPERIENCE

Frontend Developer Intern (GenAI COE) | *KPMG Global Services, Bengaluru* | January 2025 – June 2025

- Built responsive user interfaces for multiple internal enterprise applications using Angular and React, translating Figma designs into reusable frontend components.
- Integrated frontend components with REST APIs and debugged frontend-backend interactions across internal enterprise applications.
- Collaborated with cross-functional teams in an Agile development environment while adhering to enterprise security and code quality practices.

PROJECTS

LeadCraftAI | *Next.js, React, Node.js, Express.js, MongoDB, Groq API, Axios, Cheerio*

- Designed and developed a full-stack lead intelligence platform using Next.js, Express.js, and MongoDB to analyze Instagram business profiles and generate personalized outreach messages.
- Implemented Instagram profile scraping and a two-stage LLM pipeline to extract structured business insights and identify website opportunities.
- Developed a MongoDB-backed lead management dashboard with search, filtering, status tracking, while implementing backend deduplication to avoid redundant AI analysis.

TaskFlow | *Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, Socket.io, React Query*

- Built a full-stack real-time collaborative task management application using Next.js, Express.js, PostgreSQL, Prisma, and Socket.io.
- Designed REST APIs using a Controller-Service-Repository architecture with JWT authentication and Zod-based request validation.
- Implemented Socket.io for real-time notifications while keeping REST APIs as the single source of truth to ensure consistent data updates.
- Wrote Jest unit tests for service-layer business logic covering task ownership, notification workflows, and error handling.

AdSync AI | *Next.js, Groq API, Axios, Cheerio*

- Built a structured AI pipeline to align landing page content with ad intent, improving message consistency.
- Designed a planner → generator → verifier workflow with validation to control LLM outputs.
- Developed a real-time preview system to compare original vs personalized content, ensuring safe and interpretable changes.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C++

Frontend: React, Next.js, Angular, HTML5, CSS3, Tailwind CSS, TanStack Query, Framer Motion

Backend: Node.js, Express.js, REST APIs, Socket.io

Databases: PostgreSQL, MongoDB, MySQL, Prisma ORM

Authentication & Validation: JWT, bcrypt, Zod

AI: LLM Integration, Prompt Engineering, Groq API

Tools & Platforms: Git, GitHub, Postman, Jest, Docker Compose, Prisma Studio, Vercel, Render

EDUCATION

PES University

Bachelor of Technology (B.Tech), Computer Science and Engineering

Bengaluru, Karnataka

2021 – 2025
